Calendar Says Spring Scheduled for Saturday, but Snow Blankets Valley

Maybe Old Man Winter took a look at the calendar and saw that spring is scheduled to start Saturday, he said. He said he was with the worst snowstorm of the winter this morning as the snow drifts ranging all the way from one inch to four inches.

Traffic slowed to a crawl in the Twin Falls area this morning as the rights of Union Air Lines and Empire Airline were cancelled at the Gooding and Burley airports. A ceiling of only 300 feet was reported at the Burley airport.

The snow started to fall in most parts of the area shortly after midnight. At Ketchikan, snow depth Friday morning was reported at four inches. The bureau of meteorology said three and one-half inches of snow was recorded at Twin Falls, although the snow on the white street had turned to slush and melted.

Two inches of snow fell at Graysville, and one inch at the work site at Gooding, Burley, and Elgin. Snow was reported at Elgin, Graysville, and Burley. A high wind was reported at Burley where a breeze of 20 miles an hour was recorded blowing from the northeast.

Five inches of snow fell on Graysville, but highway department spokesmen said the road could be traveled all the way into Stanley. Some parts of the highway are icy and chains are advisable.

All evidence to the contrary, area residents should be able to put patches away tomorrow with selling those heavy overcoats in trucks for a few months. According to the forecast, that is without any snow and the weather bureau declares that spring will arrive at 9:57 a. m. Saturday.

Emerson Boy Killed When Car Overturns

HEYBURN, March 19—Bruce Nelson, 17, son of Mr. and Mrs. Walter Nelson, Emerson, was killed at 5:15 p. m. Thursday when a car he was driving went out of control south of here and overturned.

Collector Emerson, Heyburn, was slightly injured. She is being treated at the Cottage hospital, Burley, for shock. According to Minidoka County Sheriff Ronald H. Havel, a student at Heyburn high school, had picked up Miss Emerson to help her attend a play at the Heyburn opera to be presented at 8:15 p. m. today in connection with the Heyburn exhibit.

On the way back to the school the car went out of control while coming down a hill and overturned into a drainage ditch. Nelson was thrown from the car and died about 20 minutes later, Sheriff Havel reported.

Nelson died from a broken neck. He was born in 1931, and was a burn, and was active in athletics at the Heyburn high school.

His parents are Mr. and Mrs. Walter Nelson, Emerson, and Mrs. G. H. Nelson, Heyburn. Emerson, and Mrs. Nelson, Heyburn.

Funeral services have been set for 2:30 p. m. Sunday in the Heyburn Methodist church. The Rev. Don L. Smith officiating. Burial will be in the Heyburn cemetery.

be done when you want it done. You cannot hire 10 men to do a certain job and then send them to the garage or barn until you are ready to use them, but you can do just that with a machine.

He also said that use of farm machinery—which takes much of the "hard work" out of farming—tends to "keep the young fellows on the farm." He described present day farming as a business just like any other business, such as the automotive industry.

More and better farm aids in the form of machinery is in store for the farmer, he declared, pointing out that new capital and new engineering research is being turned to farm machinery production.

"I believe we are looking for a more stabilized agriculture in the future," he said, but he added that "there are some public critics who say that a price is worse than too low a price."

Presiding over the meeting was Dr. Joseph W. Marshall, vice president of the Kiwanis club. W. O. Smith, chairman of the agricultural committee, was in charge of arrangements. Each Kiwanis member introduced his farmer guest prior to the program.

Entertainment during the evening was furnished by a group of high school students who were introduced by Mrs. Helen Gaulty, member and principal of the Twin Falls high school.

Driver Cited as Auto Hits House

Running into a house Thursday night resulted in a citation from state police for Carroll W. Parker, route 4, Buhl. He was cited for reckless driving after the truck which he was driving crashed into the front of a house occupied by a former deputy sheriff, Dwight Shaw.

According to investigating officers, Parker's truck ran off the road and into the house, knocking a hole in the side of the building and cracking plaster on the wall and ceiling on the inside. The accident occurred at 1:50 p. m.

Parker is to appear before Justice of the Peace James O. Pumphrey.

Traffic Fines

Another 13 drivers have paid \$19 in fines for overtime parking and other traffic law violations, Twin Falls police report.

Five overtime parking tickets, each carrying a fine of \$1, were settled by H. W. Mays and \$2 fines each were paid by William McCord, making a left turn, and H. T. O'Brien, improper parking, police said.

Fines of \$1 each for overtime parking were paid by Ole Bever, Robert B. Allen, Robert B. Goley, Les Embree, Mrs. C. Judd, George Erwin, H. F. Blake, E. J. Babcock, E. J. Shaw and Ray Robinson.

Last Rites Held

Funeral rites for Mrs. James K. Tanaka were held at 3 p. m. Friday at the White mortuary chapel with the Rev. Albert B. Parrett officiating. Mrs. O. P. Duval presided at musical selections.

Cremation will be in Salt Lake City, Utah.

Nichols Finds Snuff Bothers Senate Probe

By HARMAN W. NICHOLS
WASHINGTON, March 18 (AP)—So far as could be determined by a voice vote, there wasn't a snuff-botherer in room 334.

And, as you guessed, the subject before your congress was snuff.

It ought to be noted without delay that the snuff-botherer in the senate agriculture committee, it was assembled in a room decorated with a tobacco plant.

Historic Interest
The senate has an historic interest in snuff, although none of the present members snuff or chew it. They say, in the senate chamber, that snuff bothers the senate.

At any rate, the star of the show was Dr. J. L. Maxton of Blackburg, Va. He identified himself as an economist in the extension division of the Virginia Polytechnic Institute. He adjusted his remarks to the committee for wearing it to St. Patrick's day. Then he described type 21 tobacco as good for smoking, chewing and snuff.

Use Increase Too
He said you can believe it or not, but the consumption of snuff here and abroad has increased considerably in late, for some reason or another. Maybe, he cooed, because of the use by snuff makers of type 21.

Dr. Maxton said that although he doesn't use snuff himself, he could prove that type 21 is the best there is. He quoted some domestic companies which use it in their products as saying it is the best and better and it's sweeter, too.

Sen. Allen J. Bitter of Louisiana asked the witness if he really thought that maybe he would make the tobacco people in Tennessee and Kentucky (who are snuff makers) a little mad? Dr. Maxton said he was aware of that and was ready to stand up like a man and take the consequences.

Grouping 'Not Fair'
The man from Virginia said that what he meant was that grouping tobacco types 21-24 in one bundle wasn't fair. On account of the department of agriculture's allotment of acreage. The type 21 farmers, he said, weren't able to plant as close to their allotment as the 22, 23 and 24 people in Tennessee and Kentucky. Naming names, Virginia farmers, he explained, get discouraged—a lot of them, and sold their acres to folks who started raising hogs or something else besides tobacco. That meant lost acres for tobacco, since the government says you have to raise what you say you're gonna raise.

"Give us an even break," pleaded Dr. Maxton, looking at the senators over his silver-rimmed glasses. "Each tub ought to be given a chance to stand on its own bottom. Virginia has a bottom and is willing to take a chance of being able to stand on it."

Fellowship Dinner
Given by Paul Men
PAUL, March 19—A fellowship dinner for Paul community men was held recently in the Paul school lunch room. The dinner was in charge of the Rev. James R. Crow, Ruppert, and more than 40 men attended.

Guest speakers were Professor Broden, Southern Idaho College of Education, and Howard H. Moffet, secretary of the Rupert Chamber of Commerce.

The dinner was prepared and served by the Ladies Aid of the Paul Methodist church.

Russ Equipment Shown in Yugoslavia Fete

Russian armed might was openly displayed in Yugoslavia in this VE-day anniversary celebration in 1945. These heavy Soviet tanks rumble by Tito's reviewing stand in Belgrade. New reports from inside Yugoslavia reveal how Russia is building a new arsenal in Yugoslav factories.

'Atomic Gold' Termed Good Cancer 'Help'

ATLANTIC CITY, March 18 (AP)—Radio-active gold is the best treatment for cancer so far among the new, man-made products of the atomic age.

This was reported to the Federation of American Societies of Experimental Biology by Dr. P. Hahn of the Vanderbilt University school of medicine, Nashville.

Has Beta Rays
The new form of gold is made from ordinary gold based in an atomic pile, where it becomes slightly heavier. The only difference in the heavy and the ordinary gold is that the heavy gold emits streams of electrons, known as beta rays.

For cancer treatment this new gold is made up in a colloidal solution that can be injected by needles into the malignant growth.

Most chemicals so injected would spread throughout the body, not so the gold.

Gold Rays Put
Dr. Hahn said the yellow stuff stays where it is placed. A cancer cell is well saturated with the gold, without danger to healthy tissues close by.

They rays from the gold travel only a small fraction of an inch. They kill the cancer cells that they hit. The gold is rich in these rays, millions of them spilling out in all directions, each from an atom of gold.

And to bolster the technical skills needed in building the Yugoslav arsenal, a great many Russian technicians have been moved to the Russian zone of Germany. If these Germans are communist, their lot is better than that of the little Yugoslav; if they are not communists, they join the ranks in the slave labor camp.

The shift from agriculture to industry and the seizure of livestock and crops has made the food situation for the average Yugoslav worse than during the war.

Beef used to be an export item; now only horsemeat is available in the cities.

Sugar is rationed, although the beet sugar crop is larger than before the war, when sugar was abundant; now big shipments of it go to Albania, incited with a red star and the message: "With greetings of the Soviet union to brotherly Albania."

By wheat, another erstwhile export item, is now mixed with corn for rationed bread; the "export" is taken care of in military storerooms along the Danube, or in shipments to Romania and Albania, which bear marking like the shipments of sugar.

Textile plants are busy on military uniforms; some of the work is being done by workers at home on a piece-work basis. The output does not go to the Yugoslav troops now under arms; it is being sent away in military warehouses. Less than 10 per cent of the Yugoslav wool crop remains for the needs of the people.

To get the manpower for this military industrialization, Tito's government is converting land owned by the peasants into collective farms, forcing large numbers of farmers into factory jobs.

For Yugoslavs who resist the idea, there are slave labor camps—called institutions of labor. These camps rent out their prisoners at a dollar a day to whatever factory or project needs workers. When the job is finished, the workers are returned to the camps.

\$690,197,394 Gain Counted by U. S. For Day's Taxes

WASHINGTON, March 18 (AP)—The treasury counted up \$690,197,394 in income taxes receipts last Tuesday.

It checked into government records today shows that a single day's return alone is:

1. More than the government collected from all sources during the first 45 years after its start in 1789.

2. More than double total income tax collections for any full year before 1917, when they reached a then high point of \$339,841,228.

3. About three per cent of the \$21,831,000,000 the government expects to collect from individual income taxes in the 12-month period.

Tuesday happened to be the day after the income tax returns deadline. The Tuesday total was, however, merely the amount counted that day—not the total of income taxes paid just before the deadline.

The treasury needs several more days to wind up that counting.

Uncle Looks for "Lost" Laborers

WASHINGTON, March 18 (AP)—Uncle Sam is looking for about 12,000 "lost" farm hands.

They were among more than 300,000 agricultural workers brought in from Mexico and the West Indies during the war and since to help meet a farm worker shortage.

Recruited under the direction of their respective governments, they were given permits to enter the country for only a specified period of time. And they were supposed to return to their respective countries after the harvesting season.

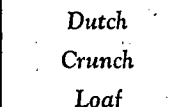

So far neither the agricultural department nor the immigration service has been able to find the 12,000. Most of those missing are from Mexico.

Selected for Group UNIVERSITY OF IDAHO, Moscow, March 18—Norman Johnson, Twin Falls, and Marjory Martin, Harma, have been chosen for membership in Sigma Tau, engineering honorary at the University of Idaho. Johnson is majoring in mechanical engineering and Langan is majoring in civil engineering.

You'll find there's nothing quite like the brighter, friendlier flavor of this rare tea

From the forbidden fastnesses of the towering Himalayas comes Darjeeling—champagne of teas—to give a touch of magic to Tree Tea's flavor. Darjeeling is costly, slow-grown, rare.

From the East's most honored gardens come high-grown Indian and fine garden Ceylons to give Tree Tea heartening richness, flowery bouquet. Only tea leaves picked at their flavor peak are used.

From leading women's groups comes the verdict: "Tree Tea tastes better." Try it—we'll gladly send double your money back if you don't agree.

Movie Genius Has No Limit On Makeover

By VIRGINIA MACPHERSON
HOLLYWOOD, March 19.—Hollywood genius knows no bounds. Today we give you a carpenter who busy with his hammer making a Paris street corner look like the Yankee stadium in the Bronx.

When Frank Blythe goes through the Champ-Elysee will be the corner of River avenue and East 27th street, the approach to the Yankee hangout.

He does it with blueprints and nails on the back lot of Enterprise studio. It's this kind of magic incantation that saves movie moguls hundreds of thousands of dollars to spend on real diamond-lara props for the glamor gals.

Sadly Reminiscing
But all the studio employees who remember dropping in at the real Pouquet's sidewalk cafe in Paris for a quick drink are harking back and sadly reminiscing as Blythe goes to work.

They hate to see it torn down. Reminds 'em of Paris in the spring in the good old days.

But Blythe is a sort of cinema cynic. To him a street corner is a street corner. Just something that has to be nailed together and painted in time for the actors to do their stuff there.

Enterprise is making "The Babe Ruth Story" now. Can't be bothered with prepping French memories. Blythe hauled down a garage which advertised the pastry shop of a Mme. Grinaux and hoisted up a shiny gold tooth for "Josh Jennings, D.D.S."

It's up to him to turn Pouquet's into "Goldhammer's" delicatesse, where the corned-beef on Russian rye with clicked pickle lured Babe Ruth and Lou Gehrig in for a snack.

Becomes Bronx Express
A crane upped the Pont Neuf which crowned the Seine river high enough for it to pass as the Bronx express on New York City's inter-borough rapid transit.

A Parisian dress shop got a new coat of paint and became Damato's shoe shine parlor. "Lexus's parfumerie" is beginning to look like "Nick's smoocher pool palace—ladies invited."

It's economy—Hollywood style. And the customers will never know the difference.

H. J. Armstrong Dies at Hospital

PILER, March 19.—Howard J. Armstrong, 63, a resident of Twin Falls county for 34 years, died at 2:30 p. m. Thursday at the Twin Falls county hospital following a lingering illness.

Mr. Armstrong, a retired farmer, was born Sept. 6, 1884, in Illinois. He was a member of the Church of the Brethren in Twin Falls.

Survivors include his widow, Della Armstrong, Piler; a son, Robert Armstrong, Piler; three daughters, Mrs. Alberta Larson, Houlter; Mrs. Bernice Finch, Eugene, Ore., and Mrs. Madge Hockett, Twin Falls; a sister, Mrs. Ollie Wadsworth, Houlter, Ind.; two brothers, Merrill Armstrong and Earl Armstrong, both Caldwell, and nine grandchildren.

Funeral services will be held at 2:30 p. m. Monday at the Twin Falls mortuary chapel. Burial will be in Sunset Memorial park under direction of the Twin Falls mortuary.

Magic Valley Men Speak at Highway Meet

CAREY, March 18—Three Magic Valley men were featured speakers when the Carey Chamber of Commerce was host to the Yellowstone Valley Highway association Thursday afternoon.

R. E. Adamson, Carey, chairman of the fourth district, Associated Sportmen clubs, gave a report on the activities of the fish and game department in connection with the Carey Chamber of Commerce. More than 150 men were present.

Choosing as his subject, the income derived from livestock in the Carey valley, Buford Kirkland, Carey, described methods of cattle raising in this area.

Jack Kell, Shoshone, district grader, spoke on grazing conditions in connection with the regional forest service. Short talks also were given by C. A. Dett, Howe, president of the highway association, and C. A. Botsford, secretary of the highway group.

Draft Chief Slates Idaho Appearance

BOISE, March 18 (AP)—Maj. Gen. Lewis B. Hershey will address the Idaho branch of the National Security committee here March 22. The former director of the selective service will share the program with Gov. C. A. Robins and Thomas Laupheimer, Jr., Boise, national president of the Air Force association. Pentress Kuhn, state chairman of the security committee, said the speaking would serve to "alert Idahoans to the need of peace through preparedness."

He said the organization hopes to bring into focus "the vital need for a strong integrated defense program."

Lunch 'Workshop' Slated in Jerome

BOISE, March 18 (AP)—A series of school lunch program workshops will be held soon in seven Idaho cities. The state department of education said today the workshops will be held for school lunch personnel, sponsoring agencies, administrators and others interested in attending. The workshop program will include organizing volunteer workers and use of community eating centers, growing and harvesting high grade fruit and vegetables, problems of food preservation and discovering hidden food values for school lunches.

The workshops will include: Washington school in Jerome, April 17.

Richfield High Presents Drama

RICHFIELD, March 18—"The Stroke of Twelve," a three-act mystery drama, will be presented Friday night by the junior class at the town auditorium.

Characters in the play will be portrayed by Lois Nesbit as Madame Orange, a retired police matron; Carol Howell, a talkative neighbor; Roy Miller, a blind individual; Lois McIntosh, his older sister, and Dick Story, a plain clothes detective. The newly installed stage curtain will be used for the first time at this presentation. Orleta Knight, junior class sponsor and high school English instructor, is director of the play.

***This is SAFEWAY'S guarantee!**

We guarantee you the bottom price in your shopping district — grade for grade and quality for quality — on every food store item

We mean this on every item...every day

To avoid wasting time, energy and gasoline in shopping around, our promise of the *bottom price* goes — *for every food store item* — not just one or two "specials" *for each and every day* you shop — not just for "special" days

It is Safeway's policy to always sell food at the lowest price. And to be sure of that, it is also Safeway's policy to meet any and every low food price in your neighborhood.

Here's how you can help us keep food prices low:

OUR METHOD of food distribution regularly assures lowest food prices at Safeway. But some day we may miss some "special." We want to give you the lowest prices on "specials" too.

Will you do this: If you see an item advertised in your neighborhood at a price lower than ours, bring a copy of the ad to your Safeway.

We will adjust our price on any item at like

grade and quality to meet *any* competitive price in the trading area of any Safeway store.

Remember, food prices *must* be low at Safeway. We bring foods in by direct routes, handle them efficiently, cut unnecessary costs.

You help keep food distribution costs low by waiting on yourself, paying cash and carrying your purchases home.

You earn and are entitled to the *lowest food prices* — by trading at Safeway.

A WORD ABOUT THE PRESENT MEAT STRIKE

Our local packing process only a very small portion of the smoked meats consumed in the valley—should the strike develop into a long drawn out affair—cured pork cuts and lard will become very scarce. With this thought in mind, we offer a number of cured meat items available in all our Stage Valley Markets at easy-on-the-budget prices and urge that you take advantage of them.
